### Helps For Canning.

Do not fail to send to the Department of Agriculture for bulletins giving information about canning. They are worth getting and keeping, and the young housewife especially should study them. Putting up fruit and vegetables should not be a haphazard matter, and there is no need of so much waste of material through spoiling. Every housewife can find something to put away for winter, if only a jar at a time, or a tumbler of jelly or preserves. It is not scarcity of material so much as lack of thrift that eats out the contents of the purse. It is not the waste in one home that does the mischief, but the nation-wide waste and careless handling of the material that should be gathered up as a duty, as well as a pleasure and profit. "That nothing be lost," we are commanded by One who controlled the whole of nature.

### A Famous After-Dinner Speech.

After dinner speeches in our day are famed for wit, for nicety and brilliancy, and they are soon forgotten, or spoken of as "frills." But the words of Jesus at the Pharisee's dinner were given with grace and dignity beyond compare.

Not one syllable has ever been forgotten or ever can be, for His words belong to eternity. Jesus connected his theme with the dinner and the place where they had eaten it. That was wise, because the people who listened would be impressed through the law of association. He reminded them that as they came in they had selected the best places at the table, leaving the least desirable ones for those who should come in after. In doing this they showed that they thought a great deal too much of themselves—that they were conceited. And He told them that it was better form to take the poorer seats and be invited to take the better ones if the master of the feast should choose to ask them. It was a well-deserved rebuke, but no doubt it was courteously given, and it was ended with the assurance that "whoever humbly himself shall be exalted." That lesson in courtesy is just as applicable today—nineteen hundred years after it was spoken—and it has been in force during all of the intervening years, and will never go out of date.—Christian Herald.

### DEATHS

The five months old infant of Sidney Kennedy, on Laurel street, was buried.

Mrs. Callie Keen, widow of Mr. Owen Keen, died on the 3rd inst., aged 38 years. She died at the home of her sister, Mrs. A. E. Dozier, who resides on the Lexington pike. Funeral services were conducted by Rev. E. B. Barnes, Saturday, 4th, after which her body was laid to rest in Richmond Cemetery.

### Land, Stock, Crop

Colorado's potato crop will exceed 12,000,000 bushels.

A long drouth has greatly injured the melon crop of Florida.

Recent rains in northern Georgia have put the fruit crop in an excellent condition.

One of the largest tobacco crops in this section has been planted by W. F. Lillard, of Anderson county. He has 93 acres in cultivation, all on excellent land.—Harrodsburg Leader.

Samuel McConnell threshed from 50 acres of wheat, raised on the farm of J. J. Craig, near Danville, 34 bushels to the acre. This is the largest average so far reported in Boyle.

Hugh McElwain, of this city, is working two geldings for N. W. Rogers, of Paint Lick, one a 5-year-old, three-gaited gelding by Rex Peavine, the other a 3-year-old chestnut, five-gaited gelding that is hard to beat.

Excellent material for hen nests may be made of tobacco stems, as they will keep the lice out of every nest where they are used and last a long time, provided the nests are so arranged that they can be kept reasonably clean. Do not permit the hens to roost on the edge of the nest.

The average prices of live stock on the Chicago market last week, as compiled by the Drovers' Journal, were as follows: Cattle, 8.70, hogs, 8.30, sheep, 4.85 and lambs 7.65. On the corresponding week of last year the averages were: Cattle, 8.10, hogs, 8.70, sheep, 4.80 and lambs 6.70.

Jas Jesse, of Moreland, sold to C. K. McClure a mare for \$100. Granville Jones, of the South End, bought a yearling mare of Carl Kidd for \$100. Tim Brown, of Crab Orchard, sold a good horse to Joe Oleshop for \$125. Dr. Whitehouse, living on the Danville pike, sold to J. C. Johnson, the Danville buyer, 40 head of 1,100-pound cattle at 7-1-2c and bought two car-loads of 1,250-cattle of Thomas Metcalf at 7.85.—Stanford Interior Journal.

Monte Fox, of Danville, purchased in this county last Thursday more than 700 head of fancy steers, averaging 1,450 pounds, for which he paid 8 to 8 1/2 c. These are the first big cattle sold this summer and the prices paid were money makers for the handlers. Some cattle men believe that the price for big cattle will materially advance within the next few weeks. The cattle bought by Mr. Fox brought approximately \$80,000.—Mt. Sterling Advocate.

### What Great Men Say of The Bible.

The whole hope of human progress is suspended on the ever-growing influence of the Bible.—Wm. H. Seward, Sec'y of State under Abraham Lincoln.

The soul can never go astray with this book—the Bible—for its guide.—Napoleon Bonaparte.

I owe my education as a writer more to the Bible than to any other hundred books that could be named.—Sir Edwin Arnold.

No man is liberally educated who has neglected the systematic study of the Bible, the book that has had a greater influence upon civilization than all other books combined.—G. F. Bovard, A. M., LL. D., president University of Southern California.

The Bible is the flower of all the books of the world; the softest pillow for the aching head; the best balm for the broken heart; it brings heaven down to earth; its lifts earth up to heaven.—Robert Stuart MacArthur, LL. D., President Baptist World Alliance.

All human discoveries seem to be made only for the purpose of confirming more and more strongly the truths that come from on high and are contained in the sacred writings.—Sir John Herschel, illustrious astronomer.

### In Camp at Lexington.

All of the visitors to the Lexington Encampment bring back encouraging reports of our soldier boys under command of Capt. Broadbush. They are the best looking, the best dressed and the best drilled of any company in the regiment. Moreover, their conduct is above criticism. They have plenty to eat, good water to drink and as comfortable as they could well be, living in the open. For a few nights they complained of the cold, but all seem to be doing the work required of them and having the time of their lives. Captain Wm. S. Broadbush is one of the busiest officers on the grounds. The regulars say that the Richmond company has no superior. All of which goes to prove that though Richmond may be a little slow, when he does land she gets there with both feet.

### Change of Location.

Mr. Chester Green, manager of the Richmond Piano Co., has moved to the Hobson building, next door to the s office. He has a splendid line of new pianos and player pianos at factory pricing. Orders taken for tuning and repairing. Phone 104. 46-2t

### Notice.

To Cattle and Tobacco Men—I am prepared to insure your cattle against Lightning; also your tobacco agains Hail. The cost is trifling. Come and see me before lightning strikes you or hail pelts you. J. W. Crooke. 43-8t

### Coin 400 Years Old.

Mr. Gus Schuman, of Lexington, was in this office for a few minutes Monday, and while here showed us a gold coin of \$1 value dated 1575, issued by Maximilian, Emperor of Austria at the time that country conquered Bohemia. The coin was issued so as to be good in both countries, having on one side a fac simile portrait of Maximilian in armor, standing, with the words, "Rex, 1575, Sladis Lavs," and on the reverse side a portrait of the King of Bohemia sitting on his throne, holding a child in his arms, which indicated that he intended to hold down his throne to his heirs. The coin is in good state of preservation, having been preserved by a gold band, as in the early days coins were made without alloy and the band was put on by Mr. Schuman's father to preserve it.

On June 29, Prof. Williams, the newly elected principal for the Union High School for the ensuing term, came out to Union City last week, and when driving down the pike at a good speed and aimed to turn the corner at the Baptist church his buggy was overturned. His wife and mother who were with him each sustained injuries, his wife being considerably bruised, and his mother receiving a rib broken.

We recommend to the Madison county people a visit to the Lincoln County Fair.

## Kellogg-Haines Singing Party as They Appear In Light Opera

**L**IGHT OPERA by the well known Kellogg-Haines Singing Party will be another most enjoyable event of Chautauqua week. One of the operas which this company presents is "Lovely Galatea," the entire rendition being given in addition to brief selections from other operas. Where, however, the date of this company comes on Sunday at a Chautauqua they will present selections from the oratorios instead of grand opera or will give a sacred concert.

At the Chautauqua Saturday Night

Cincinnati he will close his arrangements for the manufacture of his wonderful tobacco planter, for which he recently received a patent.

Mr. and Mrs. H. B. Land and two children, Robert and John, of Jessamine county, motored over Sunday and spent the day with Mrs. Land's mother, Mrs. John March, and sisters, Miss Belle March and Mrs. Jefferson Stone. Mrs. March and Mrs. Stone have been ill, but are better now.

## Just For Today.

Lord, for tomorrow and his needs  
I do not pray;  
Keep me from stain of sin or wrong  
Just for today.  
Let me both diligently work  
And duly pray;  
Let me be kind in word and deed  
Just for today.  
Let me be swift to do thy will,  
Promptly to obey;  
Help me to sacrifice myself  
Just for today.  
Let me no wrong or idle word  
Unthinkingly say;  
Set thou a seal upon my lips  
Just for today.  
So, for tomorrow and his needs  
I do not pray;  
But keep me, guide me, hold me, Lord  
Just for today.  
—Samuel Wilberforce.

## If.

If all the liars were struck dead tomorrow the first time they lied, the population of the United States the next day would be about as many people as there are in Kingston.

The United States Express Company, after 60 years of active business, has formally withdrawn from the transportation field and divided its business out among its former competitors.

More than 850,000 young trees are being set out on national forests in Utah and Southern Idaho.

A pistol which looks like a watch, the barrel being in the stem, has been patented to be used against a highwayman when he demands the surrender of valuables.

Some of the great American railroads issue bulletins to their employees with such items as these:

One lead pencil equals the hauling of one ton of coal two miles.

One track bolt equals the hauling of one ton of freight three and one-half miles.

One red lantern globe equals the hauling of a ton of freight 75 miles.

One station water pail equals the hauling of a ton of freight 20 miles.

One gallon of signal oil equals the hauling of a ton of freight 60 miles.

There could hardly be a more effective way of showing the economic importance of little things. And if a billion dollar railroad takes the trouble to look after its track spikes and bits of waste and turns them into their equivalent of accomplished work, surely an individual citizen might practice the same economy and efficiency with advantage.

Suppose we replace the railroad bulletin with some such list as this:

One lead pencil equals car fare home.

One newspaper bought and not read equals a box of matches.

One novel purchased and discarded instead of drawn from the library equals a bushel of potatoes.

One necktie never worn equals a Sunday nook.

One meal at a fashionable restaurant instead of a better meal you might have had at home equals a suit of underwear.

One suit of clothes thrown away in stead of being cleaned and pressed equals two tons of coal.

One lawn mower allowed to fall to pieces equals a pair of shoes.

One box of expensive cigars equals pipe tobacco for a year.

## Political Dope.

Figuratively speaking, Senator Ollie James, kissed good-bye to \$10,000 when he cancelled a contract with the North-western Chautauqua Association to devote the months of July and August to the Chautauqua platform. The agreement was that he was to receive \$175 per lecture, which would have brought him over \$10,000.

The Republican party in Congress has reached the point where it has almost ceased to be even a party of opposition. Some of its members voted for the Democratic Tariff Bill; many more voted for the Democratic Currency Bill; there were only a few scattering votes against two of the Democratic trust measures, and upon the third trust bill the Republicans could not muster enough strength to demand a roll call in the House.

### CAN THIS BE TRUE?

One of our valued exchanges says: "A well informed looker on in Kentucky politics stated that Mr. Beckham will carry 110 out of the 120 counties in the State. This may be disputed, but there is no reason to doubt that Mr. Beckham will carry three counties out of four and probably ten out of eleven Congressional districts."

Declaring that the principal fight in Pennsylvania was against Penrose the Progressive party in that State renewed its allegiance to Theodore Roosevelt.

Theodore Roosevelt, as the Progressive candidate for Governor of New York, is the desire of the State Progressive Campaign Advisory Committee.

The Illinois Woman's Suffrage Act was declared constitutional by the Supreme Court. This decision affects the ballot for women in all municipal and township elections.

Charges of repudiating the Baltimore platform again were made against the Democrats in the Senate by the Republicans when a provision authorizing the appointment or foreign attaches not under civil service was passed.

## Ex-President Roosevelt In Bad Health.

Four months of absolute rest has been subscribed for Col. Roosevelt by his physician, who informed him that he was suffering from an enlargement of the spleen and a loss of vitality as a result of malaria fever he contracted in the South American jungle.

"But in four months the campaign will be over," said the Colonel. Consequently, he added, he considered it an impossibility for him to follow his physician's advice. He has abandoned his campaign trip across the continent, which had been arranged tentatively for September. He also telegraphed to Pittsburgh that he would make only one speech there (last night.) Two had been arranged.

### Big Insurance Profits.

Insurance Commissioner Clay submitted his annual report to the Governor last week, and it shows that insurance companies doing business in Kentucky, collected \$5,712,280.70 during the last fiscal year from their patrons and paid out in losses only \$3,358,569.09—a difference of \$2,353,711.61. This sum is enough to give all the agents a fat commission and then have enough left to pay enormous dividends to the stockholders.

## The Oldfashioned Man.

I do not like pajamas.  
The old nightshirt for mine;  
I want no fireless cooking.  
The old wood stove is fine.  
No chafing dish creations  
Can o'er appeal to me,  
And plain corn beef and cabbage  
Is all that I can see.  
I want no fancy salads,  
Oldfashioned food is best;  
You're welcome to the bouillon,  
The lobster and the rest.  
I want no fussy neckwear,  
I'll have mine ready-tied;  
I won't wear pegtop trousers  
With cuffs four inches wide,  
Give me no belt and shirt-waist,  
I don't like sissy men;  
I'll wear my old suspenders,  
And naught will happen then.  
No calabash or meerschaum—  
Give me the corn-cob pipe,  
I hate them durn furin' olives,  
For I like my fruit ripe.  
Mix me no high-toned cocktails,  
I take my lick straight;  
I am agin' improvements,  
I fight 'em early and late.  
I never ride on railroads,  
Or send a thing by wire;  
Of fighting new inventions  
I really never tire.  
I don't believe in readin'  
New thoughts of any kind;  
And this thing they call progress,  
Is "humbug" to my mind.  
I guess, perhaps, you've guessed it  
Ere now from what I've said,  
I'm just a durned old "mossback,"  
And will be till I'm dead!

## Senator Paynter's Case.

On July 14, 1912 Senator Lorimer was ousted from the U. S. Senate by a vote of 55 to 28. Senator Paynter of this state voting with the minority in favor of Lorimer. Senator Paynter's friends and the people of Kentucky generally were greatly surprised. To a gentleman of this city who wrote him on the subject he replied in a short curt note that he had a right to vote as he pleased regardless of the wishes of his constituents. It now develops that at the time he cast the vote he was in debt to Lorimer in the sum of \$29,150. This lets the cat out of the bag. He was in debt to Lorimer and had to do as the boss Lorimer said.

## Church Notes

It is stated that there are in the Southern Presbyterian Church 735 pastorless churches and 275 places where churches could be organized if ministers to do the work were available.

It is estimated that the Sunday-schools of the Southern Baptist Church Convention raised something in the neighborhood of \$100,000 for home and foreign missions on "Missionary Day" in the Sunday-schools, April 12.

The ministers of Louisville and their congregations have taken the first steps in the way of organization for the Billy Sunday meeting.

The pulpits of 50 Philadelphia churches were filled Sunday by members of the American Medical Association on their way to the meeting at Atlantic City.

The Baptist World says: Twelve million of the 17,000,000 inhabitants of Spain can neither read nor write. No wonder Spain is and has been for centuries the most intensely priest-ridden country of the world. Sixty per cent. of the land is uncultivated. It ranks lowest in civilization among nations.

There are 300,000,000 precious souls in India; 330,000,000 gods; 8,400,000 reincarnations of the soul; 246,000,000 cannot read nor write; 6,000,000 wives under 14 years of age; 2,500,000 under 10 years; 37,000,000 widows; 250,000,000 widows under 14 years old; 14,000,000 under 4 years of age. In Bangalore, India, there are 433 baby widows not yet one year old.—Ram's Horn.

### The Best Gift.

Heaven's best gift is a hopeful heart, which rises superior to every adverse element and stems every opposing tide. One such spirit in a family is a blessing beyond estimate, and if a whole family would give out all the sunshine it could generate by continually striving to outshine every other member, there would be few cloudy days in the year.

## LIFE OF A SIBERIAN EXILE.

One Political Offender Who Lives in Comparative Luxury.

How a political exile lives in Siberia is shown in M. B. Price's book "Siberia." Mr. Price encountered this exile at Minusinsk. He and his family lived in a large house, and his actual punishment seems to consist of a certain social ostracism consequent upon banishment from the great centers of Russian life.

"When I went to call upon him he came to the door himself and, showing me in through a room where he and his wife had been having their evening meal, ushered me into a room beyond. I noticed his calm, philosophical face was that of a man who had evidently endured mental strain with stoical fortitude, but his wife, more nervous than he, showed signs of former anxiety. It seemed strange indeed that I should be sitting in company with two members of high Russian society, now ostracized by exile to Siberia, and stranger still to partake of their intelligent conversation on topics of human interest.

"First of all I was interested to know what sort of restrictions were placed upon the exile's liberty. I found that he was not allowed to leave the district in which he resided and that every week he had to sign his name in a book kept at the house of the chief 'nachalnuk.' With that exception his life was free. He had money, and he could live as he liked and go where he wished within that district, but he was continually watched by spies, who dogged his footsteps wherever he went.

"He related to me how he had acquired gold concessions on the Mongolian frontier and was hoping to find capital to float a syndicate for working them next year. This was not at all my idea of the life of a Siberian exile. Instead of being made to work himself in the galleries of the gold mines till death released him from his chains, the exile now floats mining syndicates."

## INFINITUDE OF SUNS.

Those We Know Are as Nothing to Those Beyond Our Ken.

The photographs of 25,876 standard plates show the points, or images, of 100,000,000 suns. These have not been actually counted, but plates secured by exposure in telescopes to typical regions of the sky have, and the entire number has been subjected to the calculus of probabilities, resulting in the general number of 100,000,000 colossal suns.

These have been weighed—that is, their combined force of gravitational attraction has been computed. This led to one of the most overwhelming discoveries—namely, this entire pull of attractions of the quantity of matter in 100,000,000 suns as massive as our own sun could not even begin to impart the high specific speeds of several well known "runaway" suns. These are dashing through what has been named space with velocities so much greater than all other suns that they are a class by themselves.

Our sun contains 333,426 times more matter than is in the earth, and this multiplied by 100,000,000 reveals the quantity of matter known to exist, beyond all human imagination. But this immense mass may almost be ignored as a mere fraction in comparison with the gigantic quantity necessary to impart a velocity of from 150 to 200 miles per second to these suns flying athwart the sidereal universe.

Let the number of these suns or dark bodies run up to trillions or octillions, then the entire quantity of matter in all of them would be less than the weight of one grain of sand if compared to an infinite quantity of matter.—Edgar Lucien Larkin in New York American.

## How Not to Drown.

A person who has not learned to swim, who falls into water, really drowns himself because he struggles to climb out. Should he keep cool and immerse his body, excepting his nostrils, he could float until help reached him. No one drowns with his nostrils above the surface and his mouth closed. By many experiments it was ascertained years ago that a fish—no mammal—will live ten or twelve days out of the water if its gills are kept thoroughly wetted, and a man or woman with nostrils above the surface will not drown.—Philadelphia Ledger.

## Held Him to the Rules.

An old soldier on leaving the army wrote to his colonel in the following terms:

"Sir—After what I've suffered, tell the army to go to blazes." Imagine his astonishment on receiving a reply in the usual official manner: "Sir—Any suggestions or inquiries as to movements of troops must be entered on army form 123 X. Y. Z., a copy of which I am inclosing. Yours, etc."—London Telegraph.

## Roundabout, but Clear.

Irate Parent—No, siree. You can't have her. I won't have a son-in-law who has no more brains than to want to marry a girl with no more sense than my daughter has shown in allowing you to think you could have her.—Life.

## A Poor Showing.

"How's your boy getting on in college?" "Not very well. They batted him out of the box in the third inning the other day."—Detroit Free Press.

## Romance.

"What, mother, is romance?" "It is that which pulls directly opposite from common sense."—Baltimore American.

## Prohibition Elections.

A dispatch from Lexington says: Anderson, Shelby and Mason counties will hold prohibition elections on September 28, at the same time that such elections are held in Fayette, Scott, Bourbon, Clark and Montgomery, and it is reported that a similar election may be held in Franklin county. After it had been announced by the district convention of the W. C. T. U. that Fayette, Scott, Bourbon, Clark and Montgomery would hold a prohibition election Sept. 28th, the "drys" of Shelby and Anderson asked the State W. C. T. U., which has headquarters in Lexington, to join in the campaign and to give such aid as it can. The application was approved, and in the meantime the Mason county prohibitionists decided on their own initiative to have an election on the same date, and so notified the State W. C. T. U. officials. No official notice has been received at headquarters of an intention on the part of the "drys" in Franklin county also to put the liquor question to a vote on Sept. 28th, but it is understood that the matter is under consideration by the local option leaders of Franklin county.

## The Farmer's Creed.

It would be no easy matter to amend this "farmers' creed"—from the Breeders' Gazette:

We believe in the good earth and its soil.

We believe that all men should love the soil and understand it.

We believe he nobly serves who makes two blades grow where only one grew before.

We believe that good blood will tell.

We believe that good seed should go into the enriched soil.

We believe that good animals should crop the grass.

We believe in the divine right of man to labor.

We believe in helping men get full reward for their labor.

We believe in better farms, with better roads passing by them.

We believe in better rural schools and better teachers in them.

We believe that the housewife is the better half and that to her home should come all manner of comforts.

## "What Do You Know?" "Don't Know a Thing!"

When the editor of a country newspaper starts in on Monday morning to get up something for his paper in the way of interesting local news and finds, after nosing around, that nothing has happened in the town or community that he can frame a write-up of, and nobody telephones in personal or local news, and every fellow he talks to says, "I don't know a thing," and his liver is not working and he feels as though he had just as soon take a round with Huerta as to go to work, that's the time he would like to turn his job over to the Smart Aleck who thinks he could get up a better paper than the editor and not half try.

If you feel "blue," "No account," "lax," you need a good cleaning out. HERBINE is the right thing for that purpose. It stimulates the liver, tones up the stomach and purifies the bowels. Price 50c. Sold by Wines' Drug Store. jul

## The Telephone a Community Builder

A TELEPHONE system, like the street cars, is an aid to the city's growth and suburban development. It makes it convenient for the city-employed man to live in the suburbs or country.

"Handy to business" now means a pretty suburban residence or a home in the real country.

Factories are built where land is cheap.

The population of the over-crowded cities flows out into the country, relieving unsanitary conditions and improving the general health of the community.

The telephone has brought the city and country closer together.

# Bohumir Kryl and Thirty of His Artists Coming Here Chautauqua Week

**A** LEADING feature of Chautauqua week in this city will be the appearance of Bohumir Kryl and his band. This band will comprise thirty or more artists. Mr. Kryl, in addition to leading the band, will appear in cornet solos at each performance. He is acknowledged to be one of America's five greatest bandmasters, and as a cornet player, according to the Los Angeles Times and other great newspapers, he has no superior in America. For two seasons past Kryl and his band have appeared on all Redpath Chautauquas in Tennessee, Kentucky, Michigan and Indiana. The demand was vigorous that he should return to these cities, and everywhere he is again creating great enthusiasm. With further reference to Bohumir Kryl, it will be recalled that he laid down the sculptor's chisel after completing the statue of General Lew Wallace at Crawfordsville, Ind., and made music his life work thereafter at the suggestion of Sousa and that he immediately sprang into great prominence.

## DEATH'S BUSIEST AID IS THE DRINK HABIT.

Old Human Nature Pays a Mighty Big Price For Boose.

Death tapped at the home of a young business man the other day and the cause of the sudden end of a valuable life was charitably laid to disease. Medical authorities are charitable. If the naked truth were only emphasized, many a death that is now credited to heart trouble, apoplexy, cirrhosis of the liver, and a score of other diseases would be returned as Alcoholism. Insurance Companies know the terrible death rate increase for which the drink habit is responsible. And yet the desire for drink has fastened itself upon tens of thousands, who for the sake of liquor, are shortening their lives and decreasing their efficiency. It is the worst sort of folly to keep on drinking when you can quickly rid yourself of a habit that is not only dangerous, but expensive. Spring Grove and other local cemeteries are filled with graves of men who would be alive today had they not wrecked their health by drink indulgence. This isn't a scare story, but is as true as gospel. Every Down and Out was once a "I can drink or let it alone" fellow. Every

## Golden Threads.

We were reading not long since of a person who wondered whether life had more of joy or sorrow, more of care and trouble, than of happiness. So she resolved to line the good days with gold and the bad days with black and at the end of the year look them over and see which had been her lot, more of joy or more of sorrow. She found that the good had far outweighed the evil. We think all of us would find the same thing true of our own lives. As a rule, we look on the dark side of our own life and on the bright side of other people's. We envy the rich their ease, the educated their opportunity, the musician his popularity. We think the well-dressed and the well-fed people must be happy, especially if they have fine homes well furnished. We forget that there may be skeletons in their closets which they would dread to see in ours. If we could adopt the prayer of Argus of our own, "Give us neither poverty nor riches," perhaps if we were just in that situation in life it would satisfy some of us, but not all. We are not looking for the golden threads running through our lives. Sickness comes; we see no golden threads. Death claims our loved ones, still all is dark to us. Adversity lays its hand upon us and the gold is still hidden. But there is a silver lining to every cloud, and when once we note the silver lining the golden thread is again running familiarly through our life. We may not see in this world why our lives have been so full of sorrow; why we have lost our loved ones, or why we have not prospered, but if we reach the shining shore we shall see as we do not now, and we shall know why God dealt thus with us.—Shelby Record.

## In The Good Old Days.

Those who are fond of raving over the happy days of yore and criticizing acrimoniously the present perturbed times for their surplus of ill judged legislation may derive some consolation from a perusal of the old blue laws of New Haven, printed below:

No man shall be a free man or have a vote unless he is converted and a member of one of the churches in the dominion.

No food or clothing shall be offered to a heretic.

No one shall cross a river on the Sabbath day but authorized clergymen.

No one shall travel, cook victuals, make beds, sweep houses, cut hair or shave on the Sabbath day.

No one shall kiss his or her children on the Sabbath or on fasting days.

The Sabbath shall begin at sunset Saturday.

Whoever wears clothes trimmed with gold, silver or bone lace above a shilling per yard shall be presented by the grand jurors and the selectmen shall tax the estate \$300 (\$1,500).

Whoever brings cards or dice into the dominion shall pay a fine of £5 (\$25).

No man shall court a maid in person or by letter without the consent of her parents. Five pounds penalty for the first offense, ten pounds for the second offense and for the third offense imprisonment during the pleasure of the court.

## Kentuckians Swiftly Relieved Of Stomach Ills By Mayr Remedy

First Dose of Wonderful Treatment Shows Results After Years of Suffering.

Many Kentuckians have found swift relief from disorders of the stomach and intestinal tract by the use of Mayr's Wonderful Stomach Remedy. Here are statements taken from the letters of two Kentucky people who have used the remedy: W. H. CLARKE, Central City, Ky.—"The medicine has done my wife a world of good and she has been suffering with stomach trouble for years." MRS. BELLE HAWKINS, Eminence, Ky.—"I have taken all the medicine. I don't think I need any now, as I think I am well. I never feel better in my life." From all over the country come thousands of just such letters. This wonderful remedy shows results, safely, and with the first dose. Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and removes poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare that it has saved them from dangerous operations and many are sure it has saved their lives. Because of the remarkable success of this remedy there are many imitators, so be cautious. Be sure it's MAYR'S Go to Perry's Drug Store and ask about the wonderful results it has been accomplishing—or send to Geo. H. Mayr, Mfg. Chemist, 154 156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful effects.

## New Orleans Plans War Upon Rats.

In New Orleans the fright attendant upon the appearance of poisonous rats is intense. State and city health officers are astir over the first wholesale campaign for the extermination of the plague. The campaign began as a means to slay those pestiferous rats. It came as a result of the discovery of two cases of bubonic plague, which resulted in the death of man and the isolation of twenty-eight other inmates of the Industrial Home of the Volunteers of America, one of whom is sorely afflicted with the dreadful malady. Arrangements have been made to drive the little demons into a small space from which there can be no egress and then they will be cut off.

## Helpful Words From a Richmond Citizen

Is your back lame and painful? Does it ache especially after exertion? Is there a soreness in the kidney region? These symptoms suggest weak kidneys.

If so there is danger in delay. Weak kidneys get weaker fast. Give your trouble prompt attention. Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend them. Read this Richmond testimony. Mrs. Edwards, 308 Edwards street, Richmond, Ky., says: "Doan's Kidney Pills are good kidney medicine and one that should be used in every home. I had weak kidneys and backaches and suffered intensely. I used Doan's Kidney Pills, procured at Middleton's Drug Store, and they made me feel fine."

Mrs. Edwards is only one of many Richmond people who have gratefully endorsed Doan's Kidney Pills. If your back aches—If your kidneys bother you, don't simply ask for a kidney remedy—ask *distinctly* for Doan's Kidney Pills, the same that Mrs. Edwards had—the remedy backed by home testimony. 50c at all stores. ## SCHOOLS ARE THE FOUNDATION

PROGRESS AND PROSPERITY OF STATE DEPENDS UPON EDUCATIONAL ADVANTAGES.

## CHOOSE GOOD MEN TRUSTEES

Office in Many Instances Has Fallen into the Hands of Incompetent and Indifferent Citizens.

To All Our Fellow Citizens Who Love Kentucky and Wish to See Her Advance to a Higher State of Prosperity, Materially, Morally and Intellectually—Greeting:

The schools are at the very foundation of all prosperity and progress. The quality of our schools inevitably set the standard of our citizenship. The quality of our schools must be the result of the qualifications, interests and activities of our trustees, teachers and patrons.

The trustees as a rule choose the teachers. The County Boards are made up from the ranks of the district trustees and all the affairs of the school district are in the hands of, or under the influence more or less of the trustee, hence the vital importance of choosing the very best and most suitable man in each district for the office of district trustee.

It is true that hitherto this office has generally been despised and looked down upon as unworthy of great consideration. As a consequence it has largely fallen into incompetent and indifferent hands, and as a result the children's heritage has been sold for less than a "mess of pottage."

But we are glad to see a great change coming, the people are beginning to recognize the very great importance of this office and we believe are going to see it filled with the best ability in each district.

For this reason we think it is opportune to call the attention of the school patrons especially, and the public in general to the fact that on the 1st day of August next these important offices are to be chosen by the voters—now both men and women.

We would emphasize with all possible force and urgency that the voters turn out on the day of the election for school trustees and choose men of character, of breadth of view, of activity, of earnest purpose, incorruptible, and who it may fairly expected will prove loyal to the interests of the children. Elect him and make him serve. As a rule we would not advise the election of a man who is seeking the office.

Given one of the best men in each district of the state, as school trustee, and in one year from their installation we would see such a transformation in the outlook for this Commonwealth as has not heretofore been dreamed of.—John B. McFerrin, Chairman Educational Committee, Louisville Commercial Club.

## WHAT A LIVE TRUSTEE CAN DO

As illustrating some of the few important things that a live trustee of broad view and real interest in his office might have in mind and be instrumental in accomplishing, attention is called to the following:

"A school expecting to reach the highest degree of efficiency must work under auspicious conditions. These conditions include a comfortable, attractive school building, surrounded by beautiful well-kept grounds. The condition of the building and grounds is a correct barometer of the appreciation of the community for the school. The parents, and not the children, are to be judged by the appearance of the school buildings and grounds."—Doughty, State Superintendent of Schools.

## The Site.

The trustee whose duty it may be to select the site should aim to put the school on the most convenient of all the children who are to attend. One of the most important features is the location of the school. An elevated piece of ground, a knoll, or a gentle slope should be chosen for the reason that the drainage should be from and not toward the house. Sand or gravel under the school is a natural drainage, and a southern or eastern slope secures the rapid evaporation of surface water and is the most favorable to the admission of health-giving sunlight. The house should stand where there will be free play of breezes. Trees should be near, yet not so near as to shade the house completely or to shut out the breezes in hot weather; both breeze and sunlight are essential to health. A school house should never be built on low or marshy ground, near stagnant pools, or in the neighborhood of offensive odors, nor should it in any event be near a noisy railway or manufacturing plant.

## Water Supply.

On every school house site there should be a well-protected well so placed and guarded as to be perfectly secure against surface drainage or filth of any kind.

## The School House.

A building should be fitted for the school on the same principle that a dwelling is made for the family; the health and comfort of the children should be the first consideration because all their future will be affected by the impressions they receive and the habits they contract at school. They will reach maturity with more or less vigor and make better or worse citizens according to the influences there exerted upon them.

## Grounds.

The erection of a suitable building is one good step, furnishing it well is another, employing a good teacher is of the greatest importance, but beyond these the improvement of the yard and grounds is worthy of much attention. Children catch the sentiment of a place by inspiration. The beautiful lawn, the shady grove, the inviting playgrounds have a charm for them, even the border impresses rough and reckless fellows with respect. It helps to refine their thoughts and purify their hearts.

## The Architect.

One of the first and important things in the construction of a school is the employment of an architect. The architect is regarded as an almost useless expense by some people. The aim of all good architects from earliest antiquity has been to build permanently and to build nobly. The charge of all reputable architects are about the same. It is poor economy to employ a man who will not know his business because his price is low. You pay more for what you get but do not know it.—Department of Education, Kentucky.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. ### Entering a New World.

A man was pardoned out of the Ohio  
penitentiary at Columbus a few days  
ago, after serving 43 years of a life sen-  
tence. He entered the prison in 1870 at  
the age of 23. He left it at 66 to begin  
life over again.

The prisoner has never seen an auto-  
mobile, a bicycle, an electric car, an arc  
light, a picture show or a sky scraper.  
He has never heard a phonograph; has  
never been in an elevator or a street car.  
He had never talked over a telephone.  
He could not imagine anything about  
wireless telegraphy and he knew nothing  
about aeroplanes except that he had  
once seen a picture of a flying machine  
in a book.

When released from prison he asked  
that some one be sent with him until he  
"got used to things." "What surprised  
me most," he said, "was the number of  
automobiles." In his day even the num-  
ber of buggies and carriages were limited.  
"I heard in prison that the world  
was moving faster and now I know it,"  
he said. "I can't explain it very well,  
but somehow it seemed to me to be a  
different sort of a world, doing things in  
a different way."

The changes that have come in a pe-  
riod of more than 40 years are marvel-  
ous even to those who have witnessed  
the onward march of improvement while  
moving along in the vocations of normal  
life. The ordinary citizen can have but  
faint conception of what a revelation the  
activities of a modern city must be to  
one who has been shut off from the world  
for so long a time. The old prisoner  
will find it a most difficult task to ad-  
just himself to present-day conditions.—

All but three of the insurance compa-

Stanford has a baseball league compos-

Sunday-schools. If this does not cause  
a church row, then the Christians of that  
town are immune.

Fifty-seven Kentucky postmasters will  
receive increased salaries July 1 because  
of added business at their offices. Only  
two towns in the State show a sufficient  
decrease to lower the salary of the of-  
fice.

It is now lawful to shoot squirrels, the  
closed season, which began Feb. 1, hav-  
ing ended June 15th. They are reported  
quite plentiful in this county.

The wealth of the negroes of Alabama  
is \$97,370,000. Of the 9,928,353 in that  
State, 119,440 are engaged in farming,  
who own and control 5,100,000 acres of  
land, of 350,000 more than they did in  
1900. Alabama also boasts of five ne-  
gro banks, churches costing \$20,000 to  
\$50,000 and a number of colleges, includ-  
ing the famous Tuskegee.

Los Angeles has a negro who owns  
\$60,000 worth of property and who 20  
years ago was a bootblack.

In not a single instance has the U. S.  
Senate gone on record against the im-  
perial sentiment of the country since the  
election of Senators has been made by  
the direct vote of the people.

Two active and popular Progressives  
seeking the nomination of their party  
for the U. S. Senate puts to sleep forever  
the bugaboo that Beckham can't be  
elected if nominated.

A Democratic Congressional caucus  
was held last week to agree upon anti-  
trust legislation in order to secure an  
early adjournment of Congress.

An editorial in a Washington paper  
names Senator Oliver James as one of the  
men more deserving of the Presidential  
nomination than Bryan in case Wilson  
decides not to run again.

Fortified with official figures from the  
Treasury Department, Democratic Lead-  
er Underwood told the House that there  
would be no deficit in Government fin-  
ances and that any prediction of one was  
a dream, based on wishes springing from  
politics.

### A MISTAKEN IDEA

There are some people who still resort  
to drugged pills or alcoholic syrups to  
overcome colds, nervousness or general  
debility, and who know that the pure,  
unadulterated nourishment in Scott's  
Emulsion is eminently better, but refrain  
from taking it because they fear it may  
lead to excessive fat or obesity.

This is a mistaken idea, because Scott's  
Emulsion first strengthens the body before  
making flesh. Its blood-forming prop-  
erties aid nature to throw off sickness by  
building health from its very source, and  
flesh is formed only by its continued use.  
Avoid alcoholic substitutes for SCOTT'S.

## HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging  
Conditions, Mrs. Bullock Gave  
Up in Despair. Husband  
Came to Rescue.

Catron, Ky.—In an interesting letter  
from this place, Mrs. Bettie Bullock  
writes as follows: "I suffered for four  
years, with womanly troubles, and during  
this time, I could only sit up for a little  
while, and could not walk anywhere at  
all. At times, I would have severe pains  
in my left side.

The doctor was called in, and his treat-  
ment relieved me for a while, but I was  
soon confined to my bed again. After  
that, nothing seemed to do me any good.

I had gotten so weak I could not stand,  
and I gave up in despair.

At last, my husband got me a bottle of  
Cardui, the woman's tonic, and I com-  
menced taking it. From the very first  
dose, I could tell it was helping me. I  
can now walk two miles without tire-

ing me, and am doing all my work." If  
you are all run down from womanly  
troubles, don't give up in despair. Try  
Cardui, the woman's tonic. It has helped  
more than a million women, in its 50  
years of continuous success, and should  
surely help you, too. Your druggist has  
sold Cardui for years. He knows what  
it will do. Ask him. He will recom-  
mend it. Begin taking Cardui today.

### Think It Over.

Our colleague at the adjacent desk has just cogitated this: If a man has nothing to do, he must do something to have nothing. But if a man has something to do, he needn't do anything to have nothing in a very short time.—The Boston Transcript.

### One Honest Congressman.

Members of the House laughed at the news of absence was formally granted to Representative Joseph B. Thompson, of Oklahoma, "to prosecute his campaign for the Democratic nomination for Congress." It was the first time on record that a Congressman had been so frankly liberal in presenting a request for leave. "Important business" and "illness" are stock excuses.

### Pointed Paragraphs.

Enthusiasm is to a man what powder is to a bullet. When members of a family quarrel a lot of truth leaks out.

The garrulous fool usually cuts his throat with his own tongue.

Happy is the youth whose crop of wild oats isn't worth harvesting.

Every worthy woman has a license to doubt the accuracy of all mirrors.

Women are seldom of a warlike nature—yet they are often called to arms.

When a woman insists on having her own way her husband calls it nagging.

And many a man you wouldn't believe under oath never faced a bartender in his life.

Come to Owen McKee, Richmond, Ky. for dry goods and notions. Others do and why not you.

### Helping The Unfortunate.

"A Ladder for the Down and Out." That is what a building in Chicago is often called, although it is actually named the Rufus F. Dawes Hotel, after the man to whom its erection is due. It was founded to carry out the desire of Mr. Dawes' deceased son to give men who are "down and out" a lift. He had often spoken of the need of an institution that should give a helping hand to the man who earnestly desired work, but who could not afford to pay for board and shelter while seeking it.

The building is the father's memorial to his son. It cost \$100,000 to build it, and on the opening night three hundred down-and-outs struggled in from a snowstorm that raged outside. Some of them sat down before the broad open fireplace in the spacious lobby, which soon assumed the appearance of a club room. Others, who had a few coppers, bought strings of tickets, which entitled the holder to soup at two cents, coffee at the same price, rolls and doughnuts at a cent each, and pie for three cents.

The men were desired to use the bath rooms and then each received a night shirt and a pair of blue slippers, and was shown to his sleeping quarters.

The charge for beds is five cents. They are in dormitories that are equipped with an exhaust fan ventilation. Each bed has two sheets, pillow slip and blanket. For those who prefer to be alone, there are ninety-five "cubicle" rooms on the third floor. The rooms are rented for ten cents a night.

The hotel is not intended to provide permanent lodgings. Men are accommodated while they are looking for work, but the professional idler will not be welcome. The managers of the hotel endeavor, without charge, to find employment for men in hard luck. The institution is not endowed, and is not expected to be self-supporting. The founder will look out for the deficits.

Gov. McCreary, 156 votes; J. C. W. Beckham and Congressman Owsley Stanley each received 33 votes. The Governor spoke here Monday and his friends took a lively interest in the voting, tho' the friends of the other candidates took little or none, it is but fair to say.

### The Church of the Future.

Dr. Quisenberry, of the First Baptist church, has been requested to discuss this question with local color. He has consented to do so on next Sunday night. Because his church is too small, he will go to the Opera House. He will open his heart if it costs him his job. He will discuss the church of tomorrow as related to the social, commercial and moral conditions in this city. Special music by the orchestra and soloists. Better go early in order to get a seat.

### Pointing Paragraphs.

The supply of talk exceeds the demand.

Young people seem to have a monopoly on good luck.

Do bad fish that bite on Sunday deserve to get the hook?

Most men prefer a dimpled cheek to a classical high brow.

Ever notice how much fuss men make about their honor—on the stage?

It is easier to break a man's will than it is to sidetrack a woman's "won't."

She is indeed a selfish summer girl, who wants a whole hammock to herself.

Isn't it queer how many of your friends are broke when you want to borrow a few dollars?

Nearly everybody in a small town pretends to despise an amateur show—yet nearly everybody goes.

"Charging It" at the Grocer's.

In a conference upon the cost of food, under the auspices of the Association for Improving the Condition of the Poor, Alfred D. Woodruff, of the Bureau of Food Supply, gave a startling account of what happens when the grocer "charges it."

"We have found," he said, "that only about 20 per cent. pay their bills promptly in 30 days; 28 per cent. take from one to three months to pay; 40 per cent never pay in full and 2 per cent do not pay at all." With such drawbacks to the credit system it is not astonishing that grocers go bankrupt in spite of high nominal profits."

Mr. Woodruff thinks that if women will pay as much attention to domestic economy as to "dress, bridge parties and tango teas; if they will pay cash, buy in large quantities and test short weights, not less than 25 per cent. might be deducted from the gross profits."—N. Y. World.

### MARRIED

The following from the Bourbon News will be of interest to our readers, as Miss Tribble is a native of this county and a sister of Mrs. James J. Neale and has many friends and relatives in this city and county who wish her a life of choicest blessings.

The happy couple left immediately for an extensive Eastern trip by way of Old Point Comfort, New York City, Atlantic City, Boston, Washington City and other points. After July 15, they will be at home at 440 Walnut street.

The groom is a son of Mrs. Monroe Leer, of near Paris, and a cousin of Mr. Courtland Leer, of Lexington.

### Fine Potatoes.

Mrs. Butler Carrier left at our office the finest specimen of Irish potatoes we have seen this year. She had only a small patch, but had an unusually fine yield, which she sold at an average of \$1.75 per bushel.

### Marriage Licenses.

Since our last issue, the following marriage licenses have been issued by County Clerk R. B. Terrill:

Joshua M. Woodall, Myers, Ky., and Janie Elizabeth Averitt, of Madison county.

Carl Moberly, of Garrard county, and Miss Levey Clark, of this county.

Charles A. Thomas, of Charleston, W. Va., and Phaba Louise Church, of this city.

John B. Richardson, of Hamilton, O., and Maude Harrison, of this county.

### A Wild Runaway.

Saturday night a horse driven by Messrs. Cotton and Hendon, of Kirksville, ran away for a short distance on Lancaster avenue. For a time it looked as if the young men would be killed, as the horse was frantic, and wholly beyond control. He was headed against a tree in front of Capt. John R. Pates' residence by the boys, who showed wonderful self-possession and nerve. The horse was started by one shaft falling down and hitting him on the heels. Beyond the breaking of the shafts and the frightening of the residents on Lancaster avenue out of several years growth no damage was done, though we must not forget to say that Master John Pates' new bicycle, which was on the sidewalk, became entangled in the wreckage, and can be bought for thirty cents. John's feelings were as badly disorganized as the bicycle, but otherwise his health is good.

### Of Interest To Farmers.

On July 15 the Agricultural College and Experiment Station will send from Lexington an agricultural special train which will traverse Eastern Kentucky. This section is not so well adapted to crops that require broad acres, but there is no better section on earth for the production of choice fruit and poultry. Considering these facts the train is to be especially equipped to give instruction regarding the raising of fruits and vegetables and in poultry production.

The Bureau of Forestry at Washington has become interested in the proposition and is lending exhibit material, etc., and there will be men to lecture on various phases of the forest interest.

It is a sad fact that Eastern Kentucky fails to produce enough food to supply its own people, and one object of the special train is to awaken an interest in providing a better assortment and greater quantity of fruits and vegetables for home consumption as well as for export. If this state of affairs can be brought about the drain on the money earnings of the average family will be lessened and an additional source of revenue provided.

Everybody is welcome to visit this train, see the exhibits and hear the lectures. It will be at—

Richmond at 9:45 a. m., July 15;

Berea at 11:30 a. m., July 15;

Brush Creek at 2 p. m., July 15;

Livingston at 3:50 p. m., July 15, and will stay about an hour and a half at each place.

### Attention, Calamity Howlers!

Three million dollars worth of threshing machines will be bought by farmers of Nebraska this year, according to the estimate of implement men. C. E. Miller, manager of the local branch of the Avery Implement Co., Omaha, declares that more threshers are being sent to the State and sold than for the past eight years. Other farm implements are in demand in corresponding ratio.

Recently a train comprising 50 cars, loaded with threshing machinery alone, was sent to the Lincoln branch of one of the big threshing machine firms. With wheat prospects such that the crop is practically assured now, the factories making this class of product are limited in output only by their capacity.

### Give The Girls A Chance.

Not many girls would become discouraged with country life and be willing to leave the farm home if given standard-bred fowls, a fruit or vegetable garden, a mare, cow, ewe or sow to use the returns as they desire. Girls do not like to be wholly dependent upon their parents or brothers for support, nor are they willing to deprive themselves of pleasure and education, which cost money. Give the girls a chance on your farm.

Bosley on or about July 20th, and if found in an unsanitary condition will be cleaned by the city and charged to the property owner. Cut weeds and remove trash and filth of all kinds. ### In Memoriam.

William B. Heathman, who departed this life June 24, 1914, in Newby, at the home of his mother, Mrs. Elizabeth Heathman, had been in ill health for some time and realizing the end was near, he left his home in Lexington, where he had resided nearly twenty years, and just a week prior to his death came back to his old home to spend his last hours and be buried in the old burying-ground.

His faith in his Savior was beautiful to behold, and although his suffering was intense, he wished that it was greater that it might sooner bring the end. He would tell his loved ones, who stood by him ready, willing and anxious to do something for his relief, "There is nothing you can do. I am in the hands of the Lord, who alone can give me relief."

He said he had come home prepared for his death and burial, and also for the resurrection; that he had treasures laid up in heaven.

He was born November 21, 1862. He married Miss Elizabeth Tudor, of this county, March 15th, 1886. Besides his wife and mother, he leaves two daughters, Misses Masie and Belle Heathman, and one son, Lonnie B., of Lexington; two sons, Robert F. and William, living at Nicholasville; two sisters, Mrs. R. E. Tudor and Mrs. A. J. Million; two brothers, Merritt and Talt Heathman, of this county.

He was a man of fine business qualifications, always honest and truthful in his dealings with his fellowmen. He requested that "When the roll is called up yonder, I'll be there" be sung. "For," he said, "I'll be there, and I want you to meet me there."

### BOOKS ADOPTED

By the State Text Book Commission for Common Schools.

It will take many thousands of books to supply the demand throughout the State. The publishing houses are not yet able to supply the demand and pupils and parents are requested not to buy any books yet but use old ones until advised that the books adopted are in stock by the merchants. Due notice of this will be given. State Supt. Hamlett has announced that he will prepare a bulletin immediately instructing school authorities and patrons of the schools exactly what they must do. Old books heretofore in use in the common schools may be exchanged for the new adoptions at 50 per cent of the cost of the new books.

### Gov. James B. McCreary Speaks.

Monday, county court day, Gov. McCreary, according to announcement, spoke here in the interest of his candidacy for the U. S. Senate to the voters Madison county. He was introduced by Judge Rodes Shackelford to a large audience. The Judge made a beautiful address, asking the voters to remember Madisonians at the polls. The Governor delivered an address which was listened to with marked attention throughout. He referred to the time when he first made a race in this county for the Legislature and in which he was successful. He spoke of the magnificent government building which now adorns the city and which he claimed the honor of having obtained for Madison county. He spoke also, of having been responsible for the locks and dams of the Kentucky river; of his efforts in obtaining an increase for the benefit of the common schools; of his advocacy of the geological survey; and many other things which he had done to the credit of Madison county. He again assured the voters as he did in his last race that if elected he would not again be a candidate for office, but of course reserves the right to change his mind. The Governor spoke with the vigor of 35 years ago and his address was listened to with marked attention. It was apparent to every one that they were to cast soon their last vote for the "Old War Horse."

### Child Labor Law Is Now In Effect.

The child labor law, as passed by the last Legislature, is now in effect.

Some of the special changes to which public attention is called is that every child between the ages of fourteen and sixteen years must have a permit to work, even to the selling of papers. Every newsboy holding this permit will be given a badge, which he is expected to wear as a demonstration of authority.

Another change is that no child between the ages of fourteen and sixteen years shall be permitted to work more than eight hours a day. The former provision was ten hours.

No child under fourteen is allowed to work at all.

## "I'm tired of the old furniture—I'll buy new"

Dear Amy: I've been reading in the Sunday papers how you can "make over" old chairs and things and have them look good as new. I bought some furniture polish and tapestry and tried to make new, an old chair. I spoilt a dress worth more than a new dress and smashed my thumb with the hammer and the old chair looked worse than before. No more fixing over old worn-out furniture for me. I'll buy new. As ever, Lou P. S. Because they sell only stylish, long-wearing furniture, always at a reasonable price, I'll buy from

**Think It Over.**  
Our colleague at the adjacent desk has just cogitated this: If a man has nothing to do, he must do something to have anything. But if a man has something he needn't do anything to have nothing in a very short time.—The Boston Transcript.

**One Honest Congressman.**  
Members of the House laughed at the absence of a formally granted to Representative Joseph B. Thompson, of Oklahoma, "to prosecute his campaign for the Democratic nomination for Congress." It was the first time on record that a Congressman had been so frankly liberal in presenting a request for leave. "Important business" and "illness" are stock excuses.

**Pointed Paragraphs.**  
Enthusiasm is to a man what powder is to a bullet.

When members of a family quarrel a lot of truth leaks out.

The garrulous fool usually cuts his throat with his own tongue.

Happy is the youth whose crop of wild oats isn't worth harvesting.

Every homely woman has a license to doubt the accuracy of all mirrors.

Women are seldom of a warlike nature—yet they are often called to arms.

When a woman insists on having her own way her husband calls it nagging.

And many a man you wouldn't believe under oath never faced a bartender in his life.

Come to Owen McKee, Richmond Ky. for dry goods and notions. Others do and why not you.

**Helping The Unfortunate.**

"A Ladder for the Down and Out." That is what a building in Chicago is often called, although it is actually named the Rufus F. Dawes Hotel, after the man to whom its erection is due.

It was founded to carry out the desire of Mr. Dawes' deceased son to give men who are "down and out" a lift. He had often spoken of the need of an institution that should give a helping hand to the man who earnestly desired work, but who could not afford to pay for board and shelter while seeking it.

The building is the father's memorial to his son. It cost \$100,000 to build it, and on the opening night three hundred down-and-outs struggled in from a snowstorm that raged outside. Some of them sat down before the broad open fireplace in the spacious lobby, which soon assumed the appearance of a club room.

Others, who had a few coppers, bought strings of tickets, which entitled the holder to soup at two cents, coffee at the same price, rolls and doughnuts at a cent each, and pie for three cents.

The men were desired to use the bath rooms and then each received a night shirt and a pair of bath slippers, and was shown to his sleeping quarters.

The charge for beds is five cents. They are in dormitories that are equipped with an exhaust fan ventilation. Each bed has two sheets, pillow slip and blanket. For those who prefer to be alone, there are ninety-five "cubicle" rooms on the third floor. The rooms are rented for ten cents a night.

The hotel is not intended to provide permanent lodgings. Men are accommodated while they are looking for work, but the professional idler will not be welcome. The managers of the hotel endeavor, without charge, to find employment for men in hard luck. The institution is not endowed, and is not expected to be self-supporting. The founder will look out for the deficits.

**The Straw Ballot.**  
A straw vote was taken at the Climax office Monday, county court day, in the race for U. S. Senator, with the following result:

Gov. McCreary, 156 votes; J. C. W. Beckham and Congressman Owsley Stanley each received 33 votes. The Governor spoke here Monday and his friends took a lively interest in the voting, tho' the friends of the other candidates took little or none, it is but fair to say.

**The Church of the Future.**  
Dr. Quisenberry, of the First Baptist church, has been requested to discuss this question with local color. He has consented to do so on next Sunday night. Because his church is too small, he will go to the Opera House. He will open his heart if it costs him his job. He will discuss the church of tomorrow as relates to the social, commercial and moral conditions in this city. Special music by the orchestra and soloists. Better go early in order to get a seat.

**Pointing Paragraphs.**  
The supply of talk exceeds the demand.

Young people seem to have a monopoly on good luck.

Do bad fish that bite on Sunday deserve to get the hook?

Most men prefer a dimpled cheek to a classical high brow.

Ever notice how much fuss men make about their honor—on the stage?

It is easier to break a man's will than it is to sidetrack a woman's "won't."

She is indeed a selfish summer girl, who wants a whole hammock to herself.

Isn't it queer how many of your friends are broke when you want to borrow a few dollars?

Nearly everybody in a small town pretends to despise an amateur show—yet nearly everybody goes.

**"Charging It" at the Grocer's.**  
In a conference upon the cost of food, under the auspices of the Association for Improving the Condition of the Poor, Alfred D. Woodruff, of the Bureau of Food Supply, gave a startling account of what happens when the grocer "charges it."

"We have found," he said, "that on only about 20 per cent. pay their bills promptly in 30 days; 25 per cent. take from one to three months to pay; 40 per cent never pay in full and 2 per cent do not pay at all." With such drawbacks to the credit system it is not astonishing that grocers go bankrupt in spite of high nominal profits.

Mr. Woodruff thinks that if women will pay as much attention to domestic economy as to "dress, bridge parties and tango teas; if they will pay cash, buy in large quantities and test short weights, not less than 25 per cent. might be deducted from the gross profits."—N. Y. World.

**MARRIED**

The following from the Bourbon News will be of interest to our readers, as Miss Tribble is a native of this county and a sister of Mrs. James J. Neale and has many friends and relatives in this city and county who wish her a life of choice blessings.

The marriage of Mr. H. Vernon Leer, of Bourbon county, and Miss Bessie W. Tribble, of Richmond, was celebrated Tuesday morning at 10:30 o'clock at the residence of their cousins, Mr. and Mrs. L. Theodore Smith, Lexington. The house was beautiful with flowers and growing plants. The happy couple left immediately for an extensive Eastern trip by way of Old Point Comfort, New York City, Atlantic City, Boston, Washington City and other points. After July 15, they will be at home at 440 Walnut street.

The groom is the son of Mrs. Monroe Leer, of near Paris, and a cousin of Mr. Courtland Leer, of Lexington.

**Marriage Licenses.**  
Since our last issue, the following marriage licenses have been issued by County Clerk R. B. Terrill:

Joshua M. Woodall, Myers, Ky., and Janie Elizabeth Averitt, of Madison county.

Charles A. Thomas, of Charleston, W. Va., and Phaba Louise Church, of this city.

John B. Richardson, of Hamilton, O., and Maude Harrison, of this county.

**A Wild Runaway.**  
Saturday night a horse driven by Messrs. Cotton and Hendon, of Kirksville, ran away for a short distance on Lancaster avenue. For a time it looked as if the young men would be killed, as the horse was frantic, and wholly beyond control. He was headed against a tree in front of Capt. John R. Pates' residence by the boys, who showed wonderful self-possession and nerve. The horse was started by one shaft falling down and hitting him on the heels. Beyond the breaking of the shafts and the frightening of the residents on Lancaster avenue out of several years growth no damage was done, though we must not forget to say that Master John Pates' new bicycle, which was on the sidewalk, became entangled in the wreckage, and can be bought for thirty cents. John's feelings were as badly disorganized as the bicycle, but otherwise his health is good.

Put it in a convenient place and notify the Street Cleaning Department and same will be removed. Privies must be cleaned and lime scattered.

By order of the City Council, SAMUEL RICE, Mayor.

**In Memoriam.**

William B. Heathman, who departed this life June 24, 1914, in Newby, at the home of his mother, Mrs. Elizabeth Heathman, had been in ill health for some time and realizing the end was near, he left his home in Lexington, where he had resided nearly twenty years, and just a week prior to his death came back to his old home to spend his last hours and be buried in the old burying-ground.

His faith in his Savior was beautiful to behold, and although his suffering was intense, he wished that it was greater that it might sooner bring the end. He would tell his loved ones, who stood by him ready, willing and anxious to do something for his relief, "There is nothing you can do. I am in the hands of the Lord, who alone can give me relief." He said he had come home prepared for his death and burial, and also for the resurrection; that he had treasures laid up in heaven.

He was born November 21, 1862. He married Miss Elizabeth Tudor, of this county, March 15th, 1886. Besides his wife and mother, he leaves two daughters, Misses Masie and Belle Heathman, and one son, Lonnie B. of Lexington; two sons, Robert F. and William, living at Nicholasville; two sisters, Mrs. R. E. Tudor and Mrs. A. J. Million; two brothers, Merritt and Talt Heathman, of this county.

He was a man of fine business qualifications, always honest and truthful in his dealings with his fellowmen. He requested that "When the roll is called up yonder, I'll be there" be sung, "for," he said, "I'll be there, and I want you to meet me there."

**Give The Girls a Chance.**

Not many girls would become discouraged with country life and be willing to leave the farm home if given standard-bred fowls, a fruit or vegetable garden, a mare, cow, ewe or sow to use the returns as they desire. Girls do not like to be wholly dependent upon their parents or brothers for support, nor are they willing to deprive themselves of pleasure and education, which cost money. Give the girls a chance on your farm.

By the State Text Book Commission for Common Schools.

It will take many thousands of books to supply the demand throughout the State. The publishing houses are not yet able to supply the demand and pupils and parents are requested not to buy any books yet but use old ones until advised that the books adopted are in stock by the merchants. **Gov. James B. McCreary Speaks.**

Monday, county court day, Gov. McCreary, according to announcement, spoke here in the interest of his candidacy for the U. S. Senate to the voters Madison county. He was introduced by Judge Rodes Shackelford to a large audience. The Judge made a beautiful address, asking the voters to remember Madisonians at the polls. The Governor delivered an address which was listened to with marked attention throughout. He referred to the time when he first made a race in this county for the Legislature and in which he was successful. He spoke of the magnificent government building which now adorns the city and which he claimed the honor of having obtained for Madison county. He spoke also, of having been responsible for the locks and dams of the Kentucky river; of his efforts in obtaining an increase for the benefit of the common schools; of his advocacy of the geological survey; and many other things which he had done to the credit of Madison county. He again assured the voters as he did in his last race that if elected he would not again be a candidate for office, but of course reserves the right to change his mind. The Governor spoke with the vigor of 35 years ago and his address was listened to with marked attention. It was apparent to every one that they were to cast soon their last vote for the "Old War Horse."

## Child Labor Law is Now in Effect.

The child labor law, as passed by the last Legislature, is now in effect.

Some of the special changes to which public attention is called is that every child between the ages of fourteen and sixteen years must have a permit to work, even to the selling of papers. Every newsboy holding this permit will be given a badge, which he is expected to wear as a demonstration of authority.

Another change is that no child between the ages of fourteen and sixteen years shall be permitted to work more than eight hours a day. The former provision was ten hours.

No child under fourteen is allowed to work at all.

Another radical change is in the night messenger service. No boy under twenty-one years of age may now deliver messages after 8 p. m. The age limit for night messenger service was formerly sixteen years.

In bringing about improved conditions by the enforcement of these laws the hearty co-operation of the employer and employee will be sought.
